What is your knowledge of this advisory Board/Commission?

I learned about the opportunity to serve on the Tree Board from the **DSJ** article and read about its purposes from the agendas and minutes. The goals and objectives are admirable and are activities I value and would welcome the chance to work for.

List any experience or skills you have that qualify you for this position.

I founded a neighborhood association and served as its president which placed the safety, beauty, and environment of the community as primary activities. In such capacity, I worked with the Parks Department and other city agencies to improve areas of the city. As a retired educator, I can see ways in which the Board's activities can be incorporated into the curriculum.

Why are you interested in serving on a Board for the City of Warrensburg?

I am a new resident and am quite pleased with Warrensburg's quality of life and opportunities for continuing growth. I am a strong believer in maintaining the environment for beauty, health, recreation, and enjoyment. Trees and landscaping are vital to a quality environment. Trees offer improved air, shade, products and beauty in colors, textures, and varieties. I want to help in achieving the Board's responsibilities.

Why are you interested in serving on a Board for the City of Warrensburg?

I would love to be more involved in this great community I have come to love over the last few years due to relocating to the area. Certain life commitments keep myself and family local to the area for the foreseeable future and if I can be apart of a team that is working to make this city more attractive to others that are brought here through military, school, or work, I would consider that a great privilege to be tasked with.

What is your knowledge of the advisory Board/Commission you're applying for?

I understand this board is highly involved with the Downtown Warrensburg community as well as bringing in guests for area events and giving our military guests more information about their surroundings while visiting.

List any experience or skills you have that qualify you for this position.

My background is small business and self-taught marketing/digital media to include social media and graphic design for over 10 years. My mother owns her own business and I helped bring her business into the social market as well as build a customer base while I was employed. I was fortunate enough to have a parent that believed in her child and let me explore new ideas and embrace new ways to market her business. Currently, I work for Whiteman as the sponsorship/advertising coordinator and speak with business owners consistently about marketing to our military market. I feel I have a good grasp at identifying a target market and working with others to customize a plan for growth and awareness.
