Subject: ballot issue for April

Good afternoon Ladies.

To answer your questions about lodging tax:

If the City of Warrensburg already has a city council race on the ballot, adding the additional two to three inches of ballot space for the question and the programming that is involved could add approximately half again the cost. For example, if the election cost \$4,800 with one race, adding the question would be an additional \$2,100. This would include the additional ballot costs and publication costs.

The deadline to certify questions and candidates for the April election is the last Tuesday in January by 5 PM.

If you have any other questions, let me know.

Diane Thompson
