

**Scope of Work:**

## Above-Ground Swimming Pool

**General**

1. Will excavation be necessary to install the pool? \_\_\_ Yes \_\_\_ No
2. Swimming pools are required to be surrounded by a barrier that is not less than 48 inches tall. How do you plan to meet this requirement? \_\_\_ Use existing fence around the yard \_\_\_ Install a new fence around the yard \_\_\_ Install a fence around the pool itself \_\_\_ Use the wall of the pool as a barrier

**Electrical**

1. Besides the pool pump, what other electrical components will be installed with the pool?  
\_\_\_\_\_ None \_\_\_
2. Will the pool pump be plugged into an existing GFCI receptacle, or will one be added?  
Existing \_\_\_ One will be added \_\_\_.
4. Will there be any metal parts added to this pool, such as handrails or ladders? Yes \_\_\_ No \_\_\_

**Site Plan**

Draw a site plan in the space provided and include the following:

1. Draw in the swimming pool where it will be placed and show the distance from the pool to the rear and side property lines.
2. Next, show the distance from the front of the house to the proposed new pool.
3. Finally, provide directional indicator showing north.

**Example:**
