Community Improvement District (CID)

Overview

A CID is either a political subdivision or a not-for-profit corporation organized for the purpose of financing a wide range of public facilities and establishing and managing policies and public services relative to the needs of the district. A CID is created when a petition is filed with the City by property owners owning at least 50% of the assessed value of the real property, and more than 50% per capita of all owners of real property within the proposed CID. The City establishes a CID by ordinance, but then it is a separate legal entity that is distinct and apart from the municipality. Any responsibilities or organizational ties to the City must be set forth in the charter ordinance. Sections 67.1401 to 67.1574 RSMo set forth the requirements governing CIDs.

Revenues

Can include CID imposed property tax, sales tax, or special assessments.

Eligible costs

New facilities or improvements to existing facilities that are owned by the City; for instance, convention centers, streetscapes, parking lots, murals, fountains, parks, sidewalks, streets, traffic signalization, utilities, storm and sewer systems.

Examples

Springfield, MO—downtown. CID used for the beautification of streetscapes, maintenance of public parking lots, as well as cooperative marketing efforts.

Platte County, MO-I-29/Tiffany Springs. CID used for infrastructure improvements, median enhancements and lighting along Tiffany Springs Parkway.
