

Director of Finance Report

February 08, 2021

Honorable Mayor and
Members of the City Council
City of Warrensburg, Missouri

Dear Mayor and Council Members:

The Director of Finance respectfully submits this report to augment your review of the financial information provided. It includes an update of processes Finance is working to complete and outlines the data included in the attached documents.

Business/Liquor Licenses:

Five local business establishments have been sent to the prosecutor for filing of failure to maintain an active license. This process involves a letter from the prosecutor's office informing them of the status and 15 days to comply. If they do not respond or renew the license as requested a citation will be issued to the individual listed as the owner/manager.

Liquor license establishments continue to schedule inspections, and many have passed with the license noted as approved for renewal's to be sent out in early June. All locations must have an approved inspection to qualify for the renewal. Each establishment is allowed one inspection and one reinspection for no fee if completed before March 1. If more than two inspections are required or if it is not scheduled before March 1 the fee is \$225.00 per inspection.

Utility Bills:

We were recently contacted by Tyler Technologies, the software provider for our utility billing system, that due to changes in industry standards to credit card security compliance they will no longer support the recurring utility credit card draft payments.

The city is determined to proactively address the rise of credit card fraud, data breaches and identity theft. Eliminating potentially vulnerable technology is an important part of this decision to keep citizen information secure.

Customer's that are currently set up for the draft process are being contacted by phone and if contact cannot be made there will be follow up with email's, if provided, and letters to the mailing address on file.

Options are being provided to customers at the time of contact and information is on the city's utility web page. Customer's that have not responded to the request to update the payment option on their account by March 1, 2021 will be removed from current credit card draft. (this could incur penalties for past due amounts)

Contact with the collection's agency has been ongoing to obtain a list of accounts that are considered uncollectable due to statute of limitations. When completed a process will be set up in Incode 10 to write off the accounts as bad debt.

Staff continues the process of working with reports to flag applicable accounts to compile a list of delinquent accounts to send to collections. This is a time-consuming process as the format of

report for the collection agency does not sort duplicate accounts and must be gone through to assure the information is accurate.

Disconnect's continue on schedule with no abnormal amounts encountered.

Customers continue signing up for E-billing.

Audit Fiscal Year 2020:

Audit staff is in final review of the Audit Report for Fiscal Year 2020. Once final draft is received, city staff will review and make adjusting entries, so the financial system reconciles to the audit report. Unfortunately, audit staff has had some exposure to COVID, and the expected delivery of the draft report has been pushed out another couple weeks. Upon review and completion, the audit report will be presented to Council no later than the March 22nd meeting. The report is required to the State Auditor no later than March 31.

Revenue for Fiscal Year 2021

Included with this report is a Monthly Revenue Budget Report from the financial system. This report includes each revenue category by fund and total revenue by fund. A revenue category is defined by the type of revenue collected. For example, the City collects Property Tax, Sales Tax, and other revenue. This report states the adopted annual budget, the current monthly activity, fiscal (year-to-date) activity and remaining budget percentage. As of January, the percentage remaining is expected to be approximately sixty-seven percent (67%). The report reflects the total for all funds as about sixty-four percent (63.64%). This report provides the data to build the monthly revenue charts provided to Council.

Chart for Sales Tax Comparison to Budget

Council continues to receive revenue reports that include a chart comparing sales tax collections to budget in a column line chart for each of the sales tax collections for the Fiscal Year. Information was included as to how the new chart is created in April 2020. Each Sales Tax collected is reported showing the following:

“Ten Year Comparison Table” – this table is located at the top of each monthly sales tax report provided. It is the actual collections by month and compares last year collections to this year, defines the amount and percentage difference in the last two columns.

“Actual to Budget Column Line Chart” – this is the chart that reflects the actual collections to budget amounts and the monthly difference and cumulative difference amounts. The line in the chart shows the cumulative percentage change for each month. In this example the percentages fluctuate up and down with each month's collections compared to budget. The difference and cumulative difference columns show the monthly and cumulative changes as positive and negative amounts.

“Column Chart of Actual Collections for the past 10 years” – this chart shows the actual collections each month for the past ten years. The slight variations in the collections are reflected in the size of the color blocks for each month. Overall, the chart shows sales taxes on a basic increase since 2012. The comparison of 2020 to 2021 for January shows a decrease compared to January 2020 of over 14%.

Sales tax revenue received in January is for actual sales from November or earlier. With several businesses paying their collected sales taxes at different periods throughout the year creates variation in the percentages from month to month compared to prior years. Some businesses pay monthly, quarterly, semi-annually, or even annually.

The collection of sales taxes for the first part of Fiscal Year 2021 is greater than that collected in the first part of Fiscal Year 2020 by nearly two percent (1.85%). Use tax continues to reflect a significant increase in collections compared to the first part Fiscal Year 2020 by nearly 95%. Sale Tax collections compared to 2021 Budget reflect nearly four percent (3.88%) over projected Fiscal Year 2021 budget. Use Tax collections compared to budget reflect over eleven percent (11.32%) over projections.

Revenue Comparisons:

January 2021 revenue comparisons are attached for your review. Included is the monthly comparison to January 2020, a year-to-date comparison for Fiscal Year 2021 compared to year-to-date Fiscal Year 2020, and a year-to-date Fiscal Year 2021 compared to Fiscal Year 2021 Budget. The year-to-date comparison to budget is a recap of revenue provided in the Detail vs. Budget Report from the financial system. For the first four months of the fiscal year, overall revenue is slightly exceeding budget with 58.73% remaining.

Combined Franchise taxes continue to reflect a decrease across the board for January 2021 compared to January 2020. January telephone franchise reflects a significant increase compared to January 2020. The largest decrease compared to January 2020 is just under 10% in gas franchise. Combined numbers reflect a decrease of 3.36% compared to January 2020.

Motor vehicle fuel tax continues to reflect a decrease compared to 2020 receipts. Total motor vehicle taxes and fees reflect a slight decrease compared to 2020 receipts. Total motor fuel and vehicle taxes exceed January budget projection by 7.2%. January property tax receipts are slightly less than January 2020 receipts. Lodging tax collections for January 2021 continue to be down compared to January 2020 by 36.61%.
