

Director of Finance Report

May 10, 2021

Honorable Mayor and
Members of the City Council
City of Warrensburg, Missouri

Dear Mayor and Council Members:

The Director of Finance respectfully submits this report to augment your review of the financial information provided. It includes an update of processes Finance is working to complete and outlines the data included in the attached documents.

Business/Dog/Liquor Licenses:

Two local business establishments are left from the 2021 business license season and are currently in the court system for failure to maintain an active license.

Business license renewals have been sent and are being returned for processing. The next few weeks will be busy with renewals and contact with customers that did not provide all required documentation for renewal that may include a Department of Revenue certificate of no tax due, current liability insurance or workers compensation certificate. Contact is attempted for incomplete renewals before the packet is sent back with notice of missing items.

Dog license renewals have also been sent and are being returned for processing. The same process is followed for renewals that have not provided the required documentation for rabies vaccination.

Liquor renewals have been sent to include an email copy to license holders that have provided contact information. Different license classifications require additional information to process renewals. Liquor by the Drink sales must provide more documentation than Package Liquor sales.

Renewals that have not submitted an approved inspection have been noted additional fees may apply.

Liquor license renewal process includes background checks by the Police Department and City Manager approval.

Utility Billing:

Winter average for residential accounts have been calculated and updated for all zones. All zones have received one bill with the updated average calculated. Staff continues to receive calls from residents with a change in the billing amount. Some residents are not aware of the winter average procedure.

Vacations for staff have been scheduled and updated training will be reviewed to assure billing will be processed with minimal impact.

Revenue for Fiscal Year 2021

Included with this report is a Monthly Revenue Budget Report from the financial system. This report includes each revenue category by fund and total revenue by fund. A revenue category is defined by the type of revenue collected. For example, the City collects Property Tax, Sales Tax, and other revenue.

This report states the adopted annual budget, the current monthly activity, fiscal (year-to-date) activity and remaining budget percentage. As of April, the percentage remaining is expected to be forty-two percent (42%). The report reflects the total for all funds at over thirty-five percent (35.63%) remaining.

General Fund reflects just over thirty-four percent (34.10%) remaining. General Fund includes \$409,670.20 of CARES ACT money that is not included in the current adopted budget. The CARES ACT funds will be included as part of the mid-year budget amendment scheduled for first reading at the May 10th meeting. Without the CARES ACT money, General Fund revenue collections reflects about thirty-eight percent; over budget by about four percent (4%). This report provides the data to build the monthly revenue charts included in this report.

Chart for Sales Tax Comparison to Budget

Council continues to receive revenue reports that include a chart comparing sales tax collections to budget in a column line chart for each of the sales tax collections for the Fiscal Year. Information was included as to how the new chart is created in April 2020. Each Sales Tax collected is reported showing the following:

“Ten Year Comparison Table” – this table is located at the top of each monthly sales tax report provided. It is the actual collections by month and compares last year collections to this year, defines the amount and percentage difference in the last two columns.

“Actual to Budget Column Line Chart” – this is the chart that reflects the actual collections to budget amounts and the monthly difference and cumulative difference amounts. The line in the chart shows the cumulative percentage change for each month. In this example the percentages fluctuate up and down with each month’s collections compared to budget. The difference and cumulative difference columns show the monthly and cumulative changes as positive and negative amounts.

“Column Chart of Actual Collections for the past 10 years” – this chart shows the actual collections each month for the past ten years. The slight variations in the collections are reflected in the size of the color blocks for each month. Overall, the chart shows sales taxes on a basic increase since 2012. The comparison of 2020 to 2021 for April shows a decrease compared to April 2020 of nearly nine percent. This still results in a year-to-date increase of just over three percent (3.13%). However, May sales tax receipts received reflect an increase.

Sales tax revenue received in April is for actual sales from February or earlier. With several businesses paying their collected sales taxes at different periods throughout the year creates variation in the percentages from month to month compared to prior years. Some businesses pay monthly, quarterly, semi-annually, or even annually.

The collection of sales taxes for the first part of Fiscal Year 2021 is greater than that collected in the first part of Fiscal Year 2020 by just over three percent (3.13%). Use tax continues to reflect a significant increase in collections compared to the first part Fiscal Year 2020 by over sixty-eight percent (68.54%). Sales Tax collections compared to 2021 Budget reflect just over six percent (6.08%) over projected budget. Use Tax collections compared to budget reflect over twenty-five percent (25.30%) over projections.

Revenue Comparisons:

April 2021 revenue comparisons are attached for your review. Included is the monthly comparison to April 2020, a year-to-date comparison for Fiscal Year 2021 compared to year-to-date Fiscal Year 2020, and a year-to-date Fiscal Year 2021 compared to Fiscal Year 2021 Budget. The year-to-date comparison to budget is a recap of revenue provided in the Detail vs. Budget Report from the financial system. For the first half of the fiscal year, overall revenue is slightly exceeding budget with 35.63% remaining.

Combined Franchise taxes reflect an increase for April 2021 compared to April 2020. April telephone franchise continues to reflect a decrease compared to April 2020. It is the largest decrease compared to April 2020 showing over twenty-five percent (25.14%). Combined numbers reflect an increase of over five percent (5.40%) compared to April 2020. Year-to-date franchise taxes continue to reflect a decrease of nearly five percent (4.46%) compared to 2020 year-to-date receipts. Franchise taxes are under budget by about two percent for the year.

Motor vehicle fuel tax continues to reflect a decrease compared to 2020 receipts. Total motor vehicle taxes and fees reflect a slight decrease of under one percent compared to 2020 receipts. Total motor fuel and vehicle taxes exceed projected budget as of April by over thirty-one percent (31.18%).

April property tax receipts exceed April 2020 receipts significantly. This is a result of when the County distributed tax receipt payments.

Lodging tax collections for April 2021 exceed April 2020 receipt by nearly fifty-five percent (54.98%) because the hotels were shut down April 2020 as COVID 19 cases were continually rising. Year-to-date receipts for Lodging tax are slightly over one percent of 2020 receipts. Lodging tax receipts are currently exceeding budget by nearly twenty-seven percent. This is the result of re-opening and increase in travel.
