

CITY OF WARRENSBURG
PUBLIC WORKS

Council Letter No. 22

February 14, 2022

Honorable Mayor and
Members of the City Council
City of Warrensburg, Missouri

Dear Mayor and Council Members

SUBJECT: An Ordinance Authorizing the City Manager and City Clerk to Execute a Contract with Insituform Technologies USA, LLC for the 2022 Sanitary Sewer Main Lining Project, in the City of Warrensburg, Missouri

BACKGROUND:

Bids were received for the 2022 Sanitary Sewer Main Lining Project on January 28, 2022. This project will line approximately 7,886 linear feet of sewer mains with a cured-in-place pipe liner at various locations throughout the City of Warrensburg.

A summary of the bids received is below:

Insituform Technologies	\$190,528.00
SAK Construction	\$194,357.00
Visu-Sewer	\$218,193.00
Municipal Pipe Tool	\$249,665.50
Hydro-Klean	\$269,637.90

Insituform Technologies USA, LLC is the lowest and best bidder. Insituform Technologies USA, LLC was our first contractor when we started the annual sanitary sewer lining project in 2017.

ISSUE:

Per city contracting policy, City Council approval is needed to enter into a contract for any budgeted project in excess of \$100,000. Staff is requesting authorization to execute a contract with Insituform Technologies USA, LLC for the 2022 Sanitary Sewer Main Lining Project not to exceed the budget amount of \$175,000.00. Staff plans to issue a change order with the notice of award to reduce the total linear feet by 704, by removing three sections of lining. At \$23.00 per linear foot unit cost, this change order will bring the Insituform Technologies USA, LLC bid of \$190,528.00 down to \$174,366.00, keeping the project within budget.

STRATEGIC PLAN:

This will be included in Focus I: Investment in Infrastructure.

FISCAL IMPACT:

The approved budget includes \$175,000.00 for the 2022 I & I Lining Project in the Capital Improvements Fund.

The Fiscal Impact will be \$174,336.00 from the Capital Improvements Fund.

ECONOMIC BENEFITS/IMPACT:

Improved sanitary sewer lines will improve the health of the community and decrease the demand on the operation of the wastewater plants.

RECOMMENDATION:

Staff recommends approval as submitted.

Sincerely,

Danielle Dulin
City Manager
