Why are you interested in serving on a Board for the City of Warrensburg?

I want to be a part of this particular board to help with the organizing of the sports program and to help develop opportunities for families and children to bond and grow. I'd also want to provide diversity in thought and perspective. I have experience with running sports programs and planning events. I figure why not put my skills to use.

What is your knowledge of the advisory Board/Commission you're applying for?

Is not much, I moved here last summer, noticed things are different than what I experienced. Late last year I was talking with some parents about my experiences and some suggested I should apply to be on the Parks and Rec board and help out with the program. I've decided to apply this year.

List any experience or skills you have that qualify you for this position.

I've sat on advisory boards in the past, I've coached here and have coached sports teams for the last 6 years. I've planned events from beginning to end.
