

SUBJECT: Park Maintenance Shop Cameras

RECOMMENDED ACTION: Consider approving purchase and installation of cameras at the Park Maintenance Shop.

SUMMARY:

DH Pace System Integration (PSI) will provide and install the below listed material:

Install (2) outdoor rated 4.0Mp dome cameras in the west and east garage area of the Parks Maintenance Building. Install a 180 degree multi-sensor camera on the south side of the building to view the parking lot and gas pump. Install a 270 degree multi-sensor camera on the southwest corner of the building to view the upper parking lot and gas pump. An 8 channel Avigilon recording appliance with 4Tb of storage will be installed in the IT area on the upper level. A CAT6 cable will be pulled from each camera to the IT Area through the office area and the open garage areas. Cable will be surface mounted and installed tight to the wall or ceilings.

PSI will program the IP into each camera, program, aim and focus with the assistance of the IT Director.

Quote from DH Pace attached.

FINANCIAL CONSIDERATIONS: Total cost for the camera install is \$10,456.50. We have funds for this cost from last budget year.
